-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/8/06 has been entered. Claims 9, 12, 22 and 23 have been canceled. Claims 1-8, 10, 11, 13-21 and 24 are pending in the application.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-8, 10, 11, 13-21 and 24 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The amended claims appear to expand the ranges for the velocity, power input, thermal spray thickness, and thickness percentages of the inner and outer layers beyond the ranges disclosed or supported by the original disclosure at the time of filing. It is noted that the original disclosure, including the claims and specification at pages 3 and 4, do not utilize the term "about" with respect to the range endpoints of 0.5 m/s, 0.5-45 W/mm/s, and the 0.0001 inch thermal layer lower endpoint. Further, it is noted that page 4 of the specification recites that the

Art Unit: 1773

inner layer is about 5 to about 50% of the thickness not about 5 to about 95% of the thickness, with the same for the outer layer. Hence, the amended claims contain new matter that is not supported by the original disclosure at the time of filing.

Response to Arguments

4. Applicant's arguments filed 8/8/06 have been considered but are moot in view of the new ground(s) of rejection.
